TARUN KUMAR S A

sa.tarunkumar31@gmail.com +91 80726 25476 linkedin.com/in/tarun-kumar-s-a-56369b384/
9/1, Selvam Nagar Second Street, Komarapalayam, Nammakal, Tamil Nadu – 638183

Results-driven developer with a strong foundation in full-stack web development, including experience with REST APIs, SQL databases. Passionate about building clear, testable, and production-ready code with ownership from development through deployment. Familiar with CI/CD practices and monitoring tools.

Experience

Front-End Developer Intern

- Built an Assessment Portal for SEED using React, HTML, and CSS.
- Enhanced user interaction and responsiveness.
- Collaborated via Git.
- Followed Agile practices, strengthening UI development and problem-solving skills.

Full Stack Development Intern

- Developed an e-commerce web application using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented features like user authentication, product management, and order tracking.
- Contributed to both frontend UI and backend API integration for a seamless user experience.

Education

Bachelor of Technology in Artificial Intelligence and Data Science | KGISL INSTITUTE OF TECHNOLOGY

- GPA: 8.0

HSLC | SSM Matriculation Higher Secondary School

- Percentage: 70

SSLC | SSM Matriculation Higher Secondary School

- Percentage: 81

Projects

Assessment Portal in SEED | Assessment Platform

- An exclusive platform designed specifically for conducting aptitude assessments.

Ecommerce Website | Web Application

- Developed a website that allows users to browse products, add items to a cart, and securely complete purchases.

Elite Placement Portal | Placement Management Platform

- A web-based platform to streamline and manage campus placement processes.
- Allows students to view, apply, and track company drives.
- Provides an organized dashboard for placement coordinators.

Cyber View Center — Web-Based Cybersecurity Monitoring System | Cybersecurity Monitoring System

- Developed a full-stack web application for real-time cybersecurity incident monitoring.
- Implemented incident tracking, role-based access control, and data visualization.
- Used React.js, Node.js/Express, and MongoDB.
- Integrated JWT authentication.
- Designed scalable architecture for future AI-based threat analysis and WebSocket live updates.

Certifications

Hackfest '24

PyExpo – 3rd place at Advanced level

Introduction to Git and GitHub (Google)

Jenkins for Beginners (KodeKloud)

Testing and Advanced REST with Spring Boot (Packt)

Oracle Cloud Infrastructure 2023 AI Certified Foundations Associate

Organizations

Placement Coordinator

- Organized placement drives.
- Conducted training sessions for seniors and peers to enhance their readiness.

Internshala Student Partner

- Participated in the First Registration Contest of ISP program.
- Assisted students in finding internships and advancing their careers.

Google Student Ambassador

- Represented Google at campus events.
- Promoted Google technologies and programs.
- Organized workshops to enhance digital literacy and community engagement.
